Comparative Analysis of Two Musical Genres Within a Multisensory Environmental Intervention
Karen S. Dunn, and Cheryl K. Riley-Doucet

Although AHNA supports the concepts of holism, it refrains from endorsing specific practitioners, organizations, products, services, or modalities. Advertising in Journal of Holistic Nursing does not imply endorsement by the AHNA. Only qualified educational certificate programs that apply to AHNA and meet specific criteria are recognized as endorsed by the AHNA. A list of AHNA-endorsed programs can be found at www.ahna.org.

Journal of Holistic Nursing is pleased to offer the opportunity to earn continuing nursing education contact hours in each issue. See the CNE activity in this issue for more information on how to earn these credits or visit www.ahna.org for more information.
